

AKIA
ULTRA LF25

New mobility era

Beyond the standard

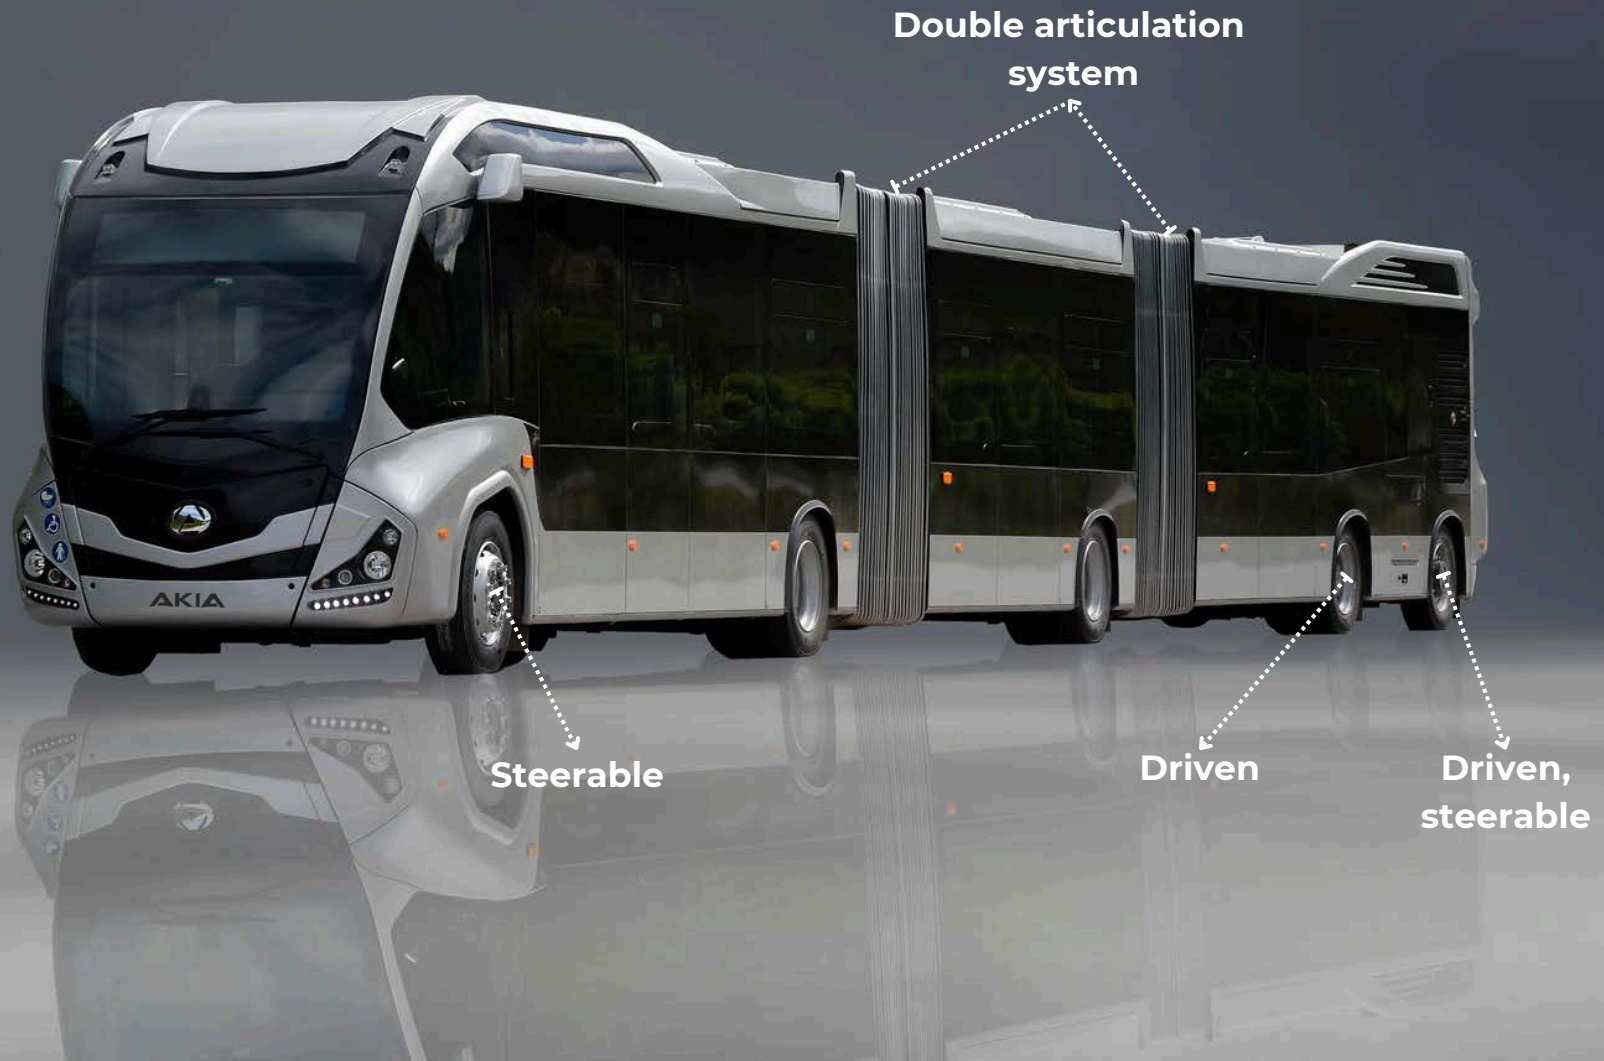

25
meters

281
passenger
capacity

**double
sided**
sliding doors

Aerodynamic design

The flexibility of a bus, the efficiency of a tram,
the best of all

- Rapid commissioning
- Low infrastructure costs
- Easy integration to existing lines
- The cheapest solution in public transportation
- Low cost maintenance and repair operations

- High climbing capability
- High level fuel savings
- Eco-friendly with low emissions
- Exceptional air conditioning system

Intelligent digital integration

Mirror camera

WI-FI

Lane departure assist

Fleet management system

GPS

Integrated information systems

TPMS

Superior maneuverability

Environmentally sensitive, performance oriented

Integrated with the latest technologies of the digital age
independent driver cockpit

Mirror camera and digital display
in the mobility ecosystem
another experience

Large interior volume and ergonomic design
the new definition of comfortable travel

Cities are more
modern and aesthetic
